

ANGLER'S TOTE XL

Suggested Retail Price \$36.95

Angler's Tote XL is the **MD Outdoor Specialties** model designed to accommodate up to six heavier rods and reels, such as those commonly used for striper, steelhead, muskie, and snapper fishing. Its design features an upper-and-lower bracket system that separates the rods and holds them in position. The grip area of each rod is inserted into one of six holes moulded into the lower bracket. The upper end of the rod fits into a matching notch which has been moulded into the upper bracket. Once rods are in place, they are secured within the notches by a bungee cord with plastic-coated hooks. The moveable bracket design is highly flexible and allows an angler to carry large rods only or in combination with light tackle rods and reels. This model is designed to handle crappie rigs up to many two piece surf rods. The flat base allows for upright storage. When fully assembled, **Angler's Tote XL** occupies a space 9 inches wide, 11 inches deep, and 36 inches long. Weight is less than two pounds.

ANGLER'S TOTE XL

PARTS LIST

- | | |
|---------------------|------------------|
| 1. TOP | 4. LOWER BRACKET |
| 2. 2 ALUMINUM TUBES | 5. HANDLE |
| 3. UPPER BRACKET | 6. BASE |
| | 7. BUNGEE CORD |

ASSEMBLY INSTRUCTIONS

- SOAK PARTS 3, 4, & 5 IN STEAMING HOT WATER FOR 4-5 MINUTES BEFORE SLIDING ONTO TUBES. THIS MAKES THEM SLIDE ONTO THE TUBES EASIER.
- PLACE BASE ON FLOOR OR WORKTABLE. INSERT BOTTOM ENDS OF (2) INTO (6).
- SLIDE PART (4) DOWN FROM THE TOP WITH TAPERED SIDE FIRST.
- SLIDE PART (5) DOWN FROM THE TOP WITH TAPERED SIDE FIRST.
- SLIDE PART (3) DOWN FROM THE TOP WITH TAPERED SIDE FIRST.
- INSERT ENDS OF TUBES (2) INTO TOP (1).
- TAP ON TOP (1) WITH Mallet OR BLOCK OF WOOD TO SEAT TUBES (2) INTO TOP (1) AND BASE (6).
- TURN TOTE UPSIDE DOWN AND CONTINUE TAPPING ON BASE (6) UNTIL TUBES (2) ARE FULLY SEATED.

NOTE: HOLES ARE TAPERED TO EASILY RECEIVE TUBING.
